Remarks

This is 1.6 acres of quiet and peaceful. This home is perfect for you to come in and put your own touches on it. It is in need of some updates, but the floorplan is great. Home has cedar siding, a crawlspace, good bones, and is ready to be updated. Coming up to the front of the home, you'll notice a huge front porch. Perfect for your country swing and rocking chairs. On the main level is your formal living room, formal dining room, living room with wood-burning fireplace, wet bar, eating kitchen with island bar. As you make your way upstairs, you'll notice two oversized bedrooms and large shared bathroom. Out back is a large patio and hot tub with fountain. The rest of the lot is mostly wooded for tons of privacy. Home is being sold as is
